Taylor Taylor Grills

Marlin Taylor.com

Marlin Taylor's Radio... My Love, My Passion reveals the definitive history of radio's most defining music format—one of the medium's most enduring and exciting programming presentations. Who better than the father of the format himself should tell this story? Marlin's recollections are inspiring and insightful. They reflect his conviction that radio stations should operate foremost as public servants, a conviction that contrasts sharply with the mindset of the broadcasters who regarded their stations as not much more than automated jukeboxes. You'll come to learn that Marlin is a man of principle who, at a very tender age, discovered the power of the most powerful of all the mass media to evoke listener response and affinity. In a sixty-year career spanning from AM to FM to HD, the always-innovative Mr. Taylor embraced new, exploring his capabilities to their fullest potential. Enjoy learning about the background of this pioneering, trailblazing broadcaster!

DR. BRUCE MIMS
Professor of Mass Media at Southern Missouri State University and co-author of the textbook, The Radio Station (10th edition, Allyn Press).

I recently read an article which states 80% of those on LinkedIn either don't enjoy or even hate their job. That statistic couldn't be further from the truth when it comes to Marlin Taylor. Having discovered the magic of radio at an early age, he quickly learned about the intimate connection between listener and radio. Discovered what he refers to as "great news" and a "true listener's fantasy" of what people want to hear, he made his life's work, his love, and his passion radio. While the business continued to change at rapid speed, Marlin's focus on creating meaningful programming and bringing joy to listeners never faltered. So inspired with the good fortune of a career in radio, Marlin's name is legendary. He is one of those special individuals who have made a lasting impression on the business and helped create radio content and programming that will stand the test of time. Radio has, we have been good to Marlin, but, even more importantly, Marlin has been good to radio.

BRUCE FARRER *President & CEO of the Radio Advertising Alliance*

I reviewed this book in one day! Couldn't stop! So I read, read the end, and I'm a radio bookaholic! Delighted to see the names of two of my favorite FM Radio music heroes, Dave Loggins and "Country Dan" Dixon, given their just due and heard it before in a quite essential history book of a radio format that exists today exclusively on satellite radio. A must read for any radioaholic.

ANT VUOLO, JR. *Radio's Best Friend*
